## Frontend Developer

**Location:** Smouha, Alexandria, Egypt | **Email:** [omar.ismail277@gmail.com](mailto:omar.ismail277@gmail.com) | **Phone:** [01115321567](tel:01115321567) **GitHub:** [GitHub Profile](#) | **LinkedIn:** [LinkedIn Profile](#) | **Personal Portfolio:** [Personal Portfolio](#) | **Frontend Mentor:** [Frontend Mentor Profile](#)

Frontend Developer with hands-on experience in React, Angular, and modern UI frameworks. Skilled in building responsive, accessible, and high-performance applications, with a portfolio of 25+ live projects ranging from e-commerce platforms to dashboards. Collaborative and adaptable, eager to contribute innovative solutions in dynamic team environments

### PROFESSIONAL PROFILE

- Strong foundation in HTML, CSS, Sass, JavaScript, with a focus on UI performance and clean architecture.
- Experienced in state management (Redux Toolkit, React Query) and backend integration (Supabase, REST APIs).
- Active learner who sharpens skills through technical workshops, coding challenges, and project-based practice.

### EDUCATION

- **B.Sc. Computer Communication Engineering, Faculty of Engineering, Alexandria University**
  - SSP CCE Department (GPA:2.72) (2015 – 2020) | Graduation Project: "Escape to Learn Game" (A+)

### INTERNSHIPS

- **4-Month Intensive Training Program (ITP), Frontend Track (Aug 2025)**
  - Information Technology Institute (ITI), Alexandria Branch | Graduation Project: **HealthyHive**: Healthy E-Commerce Website

### KEY SKILLS

- React, Angular, JavaScript (ES6+), HTML5, CSS3, Sass, Tailwind, Bootstrap.
- Git/GitHub, Zustand, Redux Toolkit, React Query, Supabase, Figma, API Integration
- C/C++, Python, MySQL, Problem Solving Skills.

### PROJECTS

- **Self-Learning Personal Portfolio Website** – Designed and developed from scratch to showcase 25+ live projects, to sharpen skills in HTML, CSS, JS & Sass. [Live Demo](#)
- **HealthyHive (ITI Graduation Project)** – Team-built responsive e-commerce platform for healthy products using React, Redux Toolkit, React Query, Tailwind, Supabase, with Git workflow strategy for collaboration and version control.
- **Post Management System – Company Interview Task** – Built login & post listing with like/unlike actions, focusing on API integration & component structure (using Postman). [Live Demo](#)
- **User Activity Monitoring Dashboard – Company Interview Task** – Developed a responsive admin dashboard (Vanilla JS, jQuery) with dynamic tables, filters, pagination, sliding sidebar and dark/light mode. [Live Demo](#)

### WORK EXPERIENCE

#### Chatbot Prompt Engineer (Coding Track)

*Outlier (Sep–Nov 2024) / Remotasks (Jan–Feb 2024) — Remote*

- Reviewed AI-generated code across multiple languages for accuracy, logic, and best practices.
- Designed and tested chatbot prompts tailored to cultural and language-specific use cases.
- Strengthened debugging, problem-solving, and clean coding practices transferable to frontend development.

### ADDITIONAL INFORMATION

- **LANGUAGES:** Arabic: Native | English: Very Good
- **Personal Skills:** Communication & Presentation Skills, Team work, Problem Solving @ Leetcode.
- **Military Status:** Completed.
